PROFESSIONAL SUMMARY

n8n automation specialist and founder of IchakaSystems who designs, builds, and ships production-grade workflow systems connecting messaging platforms, CRMs, databases, payment rails, and AI models into reliable end-to-end automations. B.Sc. Computer Science with a track record of turning manual, repetitive processes into autonomous, self-running workflows.

TECHNICAL SKILLS

Automation: n8n - multi-step workflows, sub-workflows, error handling, webhooks, scheduled & event triggers, HTTP nodes, multi-agent orchestration

AI / LLM: OpenAI API, prompt engineering, multi-agent system design, conversational AI agents, voice agents

Integrations & APIs: WhatsApp Cloud API, Pipedrive, Gmail, Paystack, Slack, Firecrawl, REST APIs, webhooks

Data & Backend: Supabase (PostgreSQL), Python

Domains: Conversational AI, B2B sales automation, fintech (payments, BNPL), social media & operations automation

PROFESSIONAL EXPERIENCE

IchakaSystems - Founder & n8n Automation Specialist | 2024 - Present

AI automation studio building n8n workflow systems for businesses - Port Harcourt, Nigeria

- Founded and run an AI automation studio delivering end-to-end n8n workflow systems that connect messaging, CRM, database, and payment tools into autonomous business processes.
- Built a multi-tenant WhatsApp pharmacy refill system integrating WhatsApp Cloud API, Supabase, Python, OpenAI, and Paystack - automating conversations, refill scheduling, and payment collection across multiple accounts; now the reference architecture for later builds.
- Designed a multi-agent B2B sales system with Prospecting, RevOps, and SDR sub-agents across Pipedrive and Gmail; and a six-sub-agent AI Social Media Manager for content planning, drafting, and scheduling.
- Built an Invoice Officer AI agent (Supabase, Firecrawl, Slack, Gmail, OpenAI) that generates and sends invoices, tracks records, and chases overdue payments; plus a Vendor BNPL system automating intake, eligibility, and repayments.
- Currently building Restocka - a WhatsApp-based AI ordering and collections agent on n8n for distributors and informal retailers.

CERTIFICATIONS

- AI Builder: Create Agents, Voice Agents & Automations in n8n - Udemy (2026).
- Flask for Beginners: Create Real World Interactive Apps - Udemy (2023).

EDUCATION

B.Sc. Computer Science - University of Port Harcourt, Rivers State, Nigeria | 2025
